

# Burford® Vision System

## MODEL V1000

The Burford® Vision System is designed to identify when product is missing from pan cavities and then target spray or split only when product is present. This system was designed for use with the Model 824-02 Spray Applicator and can also be used with other product lines.

- Detects empty pockets
- Reduces product waste
- Helps maintain clean pans
- Integrates into multiple product lines

shown with Model 824-02
